

Silly Putty Recipe

Ingredients:

- 1 cup white glue
- food coloring, your choice of color (be careful: coloring can stain!)
- 1 cup liquid starch

Pour glue and coloring in plastic container.

Stir until color is thoroughly mixed in.

Add starch a little at a time, stirring with a spoon or kneading with your fingers as mixture thickens.

Keep stirring until mixture holds together like putty.

Test with your fingers: if too sticky, add more starch in small amounts until mass is smooth and rubbery.

Oobleck Recipe

Another interesting substance is called “oobleck.” It also acts like a liquid until pressure is applied.

Ingredients:

- 2 parts cornstarch
- 1 part water
- food coloring (optional, as could stain clothing and skin)
